WILDLIFE CENTER

# INTERNSHIP & EXTERNSHIP OPPORTUNITIES

## WILDLIFE REHABILITATION INTERNSHIP

This program provides an introduction to native Hawaiian wildlife rehabilitation and helps prepare interns for a career in animal care, wildlife, conservation and veterinary medicine. The intern works directly with our Veterinarian and wildlife staff on the daily care of patients at the Hawai'i Wildlife Center. By the completion of the internship, interns will be familiar with common native Hawaiian wildlife, husbandry, animal care, rehabilitation goals and techniques.

Interested applicants must be 18 years of age or older to apply.

## INTERNSHIP LESSONS

I. Orientation, Safety, and Handling

II. Avian Anatomy

III. Physical Examinations, Medical Records, and Procedures

IV. Veterinary Aspects of Rehabilitation

V. Conservation Aspects of Rehabilitation

## CURRENTLY IN VETERINARY SCHOOL?

Two-week externships are available for veterinary school students. You must be currently enrolled in a veterinary program to apply for an externship. The externship provides students with case-based experience in avian husbandry, handling, medicine and surgery.
